A YMAR OF CALAMITIES.

"The year 1889 will go down into history as an unprecidented season of storms, flood and disaster in the United States." This is an item that has taken wings and is going the rounds of the United States press. There is much in it that demands consideration, and that has led to investigation. But this country is not the only one that has seen the visitation of dire calamities. The reports to the daily papers since the first of January show that so far this year there have been more disasters all over the world than ever before known in six months of any year. Take those that have been published in the Chicago Tribune and the reader will have a fair ides of the destruction that has been

wrought by the elements and accidents :

During the month of January there were fifteen marine disasters, involving a loss of 165 lives, included among them being the steamer Paris C. Brown, which went down in the Mississippi river, costing the loss of 11 lives. During the Pennsylvania, killing 60 persons, and 54 lost their lives by mining disasters in the old world. February saw 284 lives jest by marine disasters, during the same month 20 persons lost their lives by a railroad disaster in Belgium, ten by a wind-storm in Nebrasks, 23 by the terrible hotel fire in Hartford, Conn., 200 by an earthquake in Costa Rica, 13 by a cyclone in Georgia, and 11 by a powerful explosion in Wilkesbarre, Pa. In March the marine losses further increased to 351, the number being swelled by the 146 sailors of the German and American war vessels who were drowned during the hurricane at the Samoan Islands.

In April and May 225 lives were lost by marine accidents; then came the May floods with their terrible story of destruction. In the Conemaugh valley nearly 5,000 persons perished and \$10, 000,000 worth of property was destroyed The work of destruction did not end with the month, for in June disastrous floods swept through the valleys of the Susquehanna, the Potomac, and the Juniate, as well as through other sections of West Virginia, Virginia, Maryland, Pennsyl Vania, and New York, drowning 239 persons and destroying millions more of property. The month was characterized by a fright ful series of disasters. Thirty persons were killed by an accident on the Pennsylvanta road at Latrobe: 70 by a railroad disaster at Armagh, Ireland; 1,200 by a fire in China; 40 by a falling market building in Mexico; 70 by a mine disaster in Austria; and 70 by a cyclone in Ouba. July well keeps up the record with railroad, mine, and storm disasters. Altogether during the first six months of the year nearly 15,000 lives were lost in disasters of all kinds. Besides the loss of property involved in these disasters fire has swept away property amounting to over \$70,000,000 in value in the United States. The loss in conflagrations amounting to \$100,000 or over each for the six months is \$41,619,000 as compared with \$47,470,00 for the whole of last

At a later date, having secured more information, the Commercial Advertiser said with authority: "The Arthur R:chmond letters were written by William Henry Hurlbert, Donn Platt, Gail Hamilton, Thorndike Rice, and a thus far anonymous person designated as a contributor to the Inter Ocean." The Inter Ocean now comes forward and says: The editor of the Inter Ocean happens to know something about the authorship of some of the Arthur Richmond letters and has certain knowledge that at least mercial Advertiser had nothing to do had passed between himself and the Times' with the letters. Neither the editor nor proprietor of the North American Review knows anything about the authorship of some of the letters, as the whole matter of negotiation was conducted for them through this office, the writer being entirely unknown to them.

The World has none but friendly feelings for Mr. Brice. It admires his abil-ity in his special field of finance. But it feels, what every candid democrat knows, that the appointment to the head of the democratic organization would render impossible, or, still worse, ridicnlous, a campaign by that party against the encroachments of the money power in the field of politics and of government.—New York World.

The World must deal in a spirit of charity with Brice and the democratic organization. The only hold the demo cretic organization can have on anybody is through its money power. It has nothing else on which to auchor a hope for success. If the democratic organization had anything else to commend it to same month a cyclone swept through the people, it wouldn't have Brice for

Reports from' Washington, according to the St. Louis Globe-Democrat, indicate that President Harrison expects congress to abolish all internal revenue taxes except that on whisky. This method would reduce the surplus directly, and would be in the interest of protection. Cutting down the tariff would not reduce the surplus, but would increase it by stimulating importations and swelling the revenue. President Harrison is always on hand with his good sense.

> Mr. Soames was then recalled. He testified that he had not made out a list of the payments made to the witnesses. He could not tell when he had first corresponded with Le Caron. There was no definite arrangement as to how the witness should pay him. Mr. McDonald, manager of the Times, said it was understood that Le Caron would be provided for. He had lost his employment in the government service and as long as it was needed he was to re-

Mr. Houston, secretary of the Loyal and Patriotic union, was then recalled and re-examined. He testified that Lord Stallbridge first mentioned Pigott to him as useful witnesss. The articles on "Parnellism and Crime," published by the Times, were an elaborate reprint of "Parnellism Unmasked," which was compiled by Pigott, and for which the witness was paid £60. The witness stated that he was willing to place the books of the Loyal and Patriotic union before the court, but he objected to their being examined by political opponents. The witness borrowed £450 from Lord Stallbridge and Sir Blenner Hassell, and £350 from Dr. McGuire, for the purchase of the letters printed by the Times

Sir Charles Russell demanded the pro-

WANTED TO IMPEACH M. CONSTANS.

Premier Tirard Nips in the Bud a Scheme to Crush the Minister of the Interior. PARIS, July 13.-The party of the Right having decided to bring impeachment pro-ceedings against M. Constans, Minister of the Interior, on a charge of corruption and dishonesty while serving as Governor of Indo-China, M. la Martiniere made the motion looking to impeachment in the Chamber of Deputies.

When M. la Martiniere offered his

motion. Premier Tirard said he could with difficulty restrain his indignation at the monstrous charge made against one of his colleagues. Since he entered the cabinet he had seen no document that justified the present proceeding. It was the custom in Indo-China to make presents. If the charge of corruption and dishonesty was based upon the acceptance of presents the same charge might be made against himself, as he had recently accepted a present. His sole reply to the motion was to move

Maori Makes a Mile in the Remarkable Time of 1:39 4-5. CHICAGO, July 13.—Maori now has the record—1:39 4-5—at one mile, as she beat the 1:40 of Stuyvesant, who as a 3-year-old in 1887 covered the distance in the fastest time ever made in a race. Maori's performance was made in a special conditions' race for 3-year-olds and upwards, and \$1,000 extra was to be given the winner should Ten Broeck's 1:394 be beaten. Several of the trainers that stood in the three or four watches stopped on that mark. The electric clock showed 1:391. There were five horses in the race and Laura Davidson got away last of all. The start was such a straggling one that the starter was roundly hissed. Laura Davidson, only beaten a length, ran faster than the two (which finished ahead of her, and was separately timed in 1:391.

COLUMBUS, Ind., July 13.-Jake Kilrain and party went from this city Friday night to Edinburgh, ten miles north of here. They were closely pursued by Sheriff Smith and party, but admirers of the pugilisti took them in charge and so successfully hid them that the officers could not find their whereabouts, although a diligent search was made for them. About 1 o'clock Kilrain, Mitchell, Moore, and Murphy were driven in a carriage to the residence of William Cooper, a few miles east of Edinburgh, in the country. They spent the remainder of the night there, and were still there when the last report was received here. They will probably spend several days in the neighborhood. They ere making for Chicago.

Statistics of Immigration. New York, July 13.—The statistics of mmigration for the first three months of this year show a considerable falling off from the record of the same period of 1488. There were 50,394 males and 20,950 females, or 71,344 immigrants all told, who arrived during January, February, and March of this year, as against 87,261 in the first quarter of 1888. Of this year's immigrants 9,096 were from England, 4,467 from Ireland, 2,234 from Scotland, and 92 from Wales. From Germany there were 13,532; from Russia, 4,679; from Austria, 6,340; from Italy, 3,163; from Sweden and Norway, 3,759 from Switzerland, 1,617; from France, 1,055, and from the rest of Europe, 2,764. There were 1,134 from the West Indies, 66 from South America, 6 from Central America; from Asia, 216; from Africa, 24; Australia, 190; the Hawaiian islands, 246, and from other islands 8. Eight were

His Second Application Refused by Criminal Court Judge---The Day's Criminal Record.

MUST STAY IN JAIL.

CHICAGO, July 13.—The application for writ of habeas corpus in behalf of John F. Beggs has been denied by Judge Horton after a spirited debate between the lawyers on the legal points at issue. The attorneys for Beggs say they will carry the case to the Supreme court. Judge Horton gave up the day to the

hearing of arguments. Beggs was in court throughout the entire proceedings. His bearing was calmly cheerful, and he did not look like a man on the brink of a con-Judge Horton, in giving his decision,

"I have been first impressed by the fact that no affidavits have accompanied the motion; and neither is it a verified motion. There is no statement from the defendant save the mere formal one by the defendant's counsel. Is it not necessary that the motion should show such a state of facts that if submitted to a petit jury they would fix the grade of the offense? The counsel does not claim there is no presumption of guilt in the indictment, and it seems to me that something more than the formal application of attorneys ought to

"The petition avers that the defendant innocent, and that the grand jury did not indict him on proper evidence; but nothing additional to the statement is offered. Counsel on both sides have argued this case on the basis of murder, the defense claiming that their client is innocent. If innocent, the prisoner ought not to be required to give bail, while if he be guilty he is not entitled to bail. I overrule the application for the writ." Mr. Beggs was remanded to jail.

SAN FRANCISCO, Cal., July 13 .- The teamer Acapulco arrived this afternoon from Panama. On board the Arapulco was found Maurice Welch, a former friend of Dillon's, and who shipped as a sailor from this port on the last trip of this steamer to the south. A recent Chicago dispatch said that a picture of Welch had been identified by several persons there as the suspect Simons, who appeared in the Cronin case as the man who bought the Carlson cottage furniture. Welch manifested marked interest in the recital of the Cronin case, but denies that he had any onnection with it.

NIPPED THE COUNTERFEITER. Breaking Up of a Dangerous Gang

"Conlackcers" in Mexic. Et Paso, Tex., July 13.-A nest of counterfeiters has been broken up just across the river in Juarez, Mexico. Several days ago Charles Jones, a young stockman, was approached by a man who gave his name as R. H. Allen of St. Louis. Later he entered into a conversation with Jones, in the course of which he said he could put Jones onto a scheme to make \$10,000 for \$2,500 if Jones would give him 5 per cent. Jones agreed, whereupon he told him that he knew a man in Juarez who was making counterfeit \$10 gold pieces that could not be distinguished from genuine and that for \$2,500 Jones could get \$10,000 in

Jones expressed a desire to see the money first, and Allen promised to arrange the matter. Jones notified the police, and, according to the agreement with Allen, met the Juarez man, Martin, yesterday afternoon and was taken to a little adobe where the latter showed him the dies, and cast a \$10 gold piece for him to bring over to this side and try at the bank. Jones put the money in his pocket and at the same time covered Martin with a pistol and called for the police outside. Martin tried to destroy the dies by stamping on them, and partially succeeded before the police could interfere. He was placed in fail in Juarez. In the meantime Allen had been arrested on this side. The \$10 gold piece looks like a genuine American coin

RAN OFF WITH A NUDE WOMAN. Pittsburg Police Excited Over a Strange

Midnight Ride Through the City. PITTSBURG, Pa., July 13.—The police are mystified over the remarkable spectacle of a colored man and a white woman driving pell-mell through the streets of the city in an open buggy.

This sight was witnessed on Liberty street at 1 o'clock this morning. The police had received a telephone message from the east end notifying them to be on the lookout, and when the vehicle came along half a dozen officers tried to stop it, The woman was screaming for help and twenty-five shots were fired at the negro, but without effect. When the rig reached the Seventh street bridge another policeman fired a shot, but the pursued escaped to Allegheny City. It is supposed to be a kidnaping case.

There is no trace of the negro and his victim after reaching the Allegheny side.

A RAILROAD TRUST.

A Plan to Do Away with Ruinous Rate Wars and Increase Dividends. NEW YORK, July 13.—The scheme originally devised by John J. McCook of this city for the formation of a railroad trust— or, as he puts it in a circular letter he sent out to railroad officials, "placing at least a majority of the shares of each of the competing Eastern trunk lines, the coal lines, the Southwestern and Northwestern lines, and the transcontinental lines and their respective affiliated companies, arranged by territorial groups, in trusts similar in many respects to the Standard Oil and other successful trusts"-has, it is said, the backing of three of the largest banking houses in the country—Drexel, Morgan & Co., Brown Brothers & Co., and Kidder, Pea-

Mr. Magourn of the last named house said that a scheme was in contemplation, but he could say nothing as to the details of it; they had not been arranged. Mr. McCook said, in speaking of his original circular, that if any gentlemen were engaged in working out the plan suggested he had no knowledge of it. Wall street inought that the idea would not find backing, but those who are back of it now are able to put even such a mighty undertaking as this through. The idea is to cenralize the power and cut off ruinous competition. They regard it as a means by which economics could be practiced and the money returns to the shareholders ma-

terially increased. It was learned from a banker of prominence that most of the great roads in the West, including the Union Pacific, would favor such a scheme as the bankers are fostering and that the Gould and Vander-

FRESNO, Cal., July 13.-Early this morning fire broke out in the bakery of Weimar & Leban. The building was so inflammable that the fire spread with great rapidity, and though an alarm was promptly sounded the whole building was in flames before the firemen arrived. The fires which have occurred in Chinatown within the past week have made people nervous, and when they heard the alarm they poured out of their houses, and in a few minutes the streets were alive with people ready to render assistance. At one time it seemed as if the whole business part of the city would be destroyed. From the Grand Central hotel. a three-story building with galleries around it, the firemen made desperate efforts, knowing, if at once fairly started, the whole block would go and fire would destroy everything in that part of the city. CARS CRASH DOWN A GRADE. Carelessness Causes the Loss of a Life

Near Paterson, N. J. PATERSON, N. J., July 12. - Nine freight cars were side-tracked by a switch engine about 3 o'clock this morning half a mile above the Erie depot, and were left with out set brakes.

An hour later they started down the grade, jumped several switches, and finally crashed into the engine which had taken them to their destination. The pilot and tender of the engine were smashed, and three passenger coaches and two freight cars were demolished. Fireman Joseph Gordon of Jersey City was caught between the tender and fire box, and one of his legs burned to a crisp. to the St. Joseph hospital, where he died at 9 o'clock this morning. Engineer Davis escaped uninjured. The end of the depot was stove in, and the night telegraph operator had a narrow escape.

LAND OFFICE FRAUDS.

Bad Discoveries in the West---Numerous Changes to Be Made. WASHINGTON, July 13—There is likely to be a general shaking up in the land office pretty soon, as the new special agents who have been looking into affairs out West have made some rrther nasty discoveries. It appears that during the administration of Gen. Sparks the latter was so much occupied in seeking reasons for refusing homestead claims that he entirely overlooked the frauds that were being perpetrated in his name. The officers of the Interior Department declined to show the reports or give any details as to their contents, but the President and Secretary Noble have had two or three earnest interviews over the matter, and have about decided that it is useless to go on with the investigation until a good many changes have been made in the list of

registers and receivers. They'll Wander Back Again. New York, July 13.—Secretary of the Treasury Windom has telegraphed Col-lector Erhardt his approval of the course of the emigrant commissioners in detaining the emigrants sent to Agent Nell of the Southern Pacific railroad by Wilson of London and ordered the immediate return of every man sent to Agent Nell under the law prohibiting the importation of con-tract laborers.

BELLVILLE, III., Nov., '83. I am 27 years of age now; since I was 16 years old I was a sufferer of epilepsy. In Germany I was treated by one of the best physicians for five years, without relief. I then came to America and here I tried many so-called cures for that terand here I tried many so-called cures for that terrible disease, but I was so disappointed, that I
gave up all hopes of ever getting rid of it, because
I not even got relief. But after all I was soon
convinced that there is a real remedy, which
really cures the epilepsy. In the month of April
I commenced to take Pastor Koenig's Nerve
Tonic, the effect of which was so marvelous that only once since then the fits returned, but now 5 moths have elapsed and not a symptom of the disease showed itself. Im am, therefore, convinced that the Nerve Tonic is a real cure for epilepsy and shall always hold it in grateful removement. A. MUCKENSTURMA

Our Pamphlet for sufferers of nervous diseases will be sent free to any address, and poor patients can also obtain this medicine free of charge from us. •

TO MONTANA, OREGON AND WASHINGTON. If you are going west bear in mind the follow ng facts: The Northern Pacific Railroad owns and operates 987 miles, or 57 per cent. of the entire railroad mileage of Montana; spans the territory with its main lines from east to west: is the short line to Helena; the only Pullman and dining car line to Butte, and is the only line that reaches Miles City. Billings, Bozeman, Missoula, the Yellowstone National Park and, in fact, nine-tenths of the cities and points of interest in the territory.

in fact, nine-tenths of the cities and points of interest in the territory.

The Northern Pacific owns and operates 621 miles or 56 per cent of the railroad mileage of Washington, its main line extending from the Idaho line via Spokane Falls, Cheney, Sprague Yakima and Ellensburg, through the center of the territory to Tacoma and Seattle, and from Tacom to Portland. No other transcontinental through rail line reaches any portion of Washington Territory. Ten days stop over privileges are given on Northern Pacific second class tickets at Spokane Falls and all points west, thus affording intending cettlers an excellent opportunity to see the entire territory without incurring the expense of paping local fares from point to point. point to point.

The Northern Pacifiic is the shortest route from St. Paul to Tacoma by 207 miles; to Seattle by 177 miles, and to Portland by 324 miles—time correspondingly shorter, varying from one

to two days, according to destination. No other line from St. Paul or Minneapolis runs through passenger cars of any kind into Idaho, Oregon or Washington.

In addition to being the only rail lin to Spo-Rane Falls, Tacoma and Seattle, the orthern Pacific reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon and Washington. CONCERNING WOMEN.

Female barbers are not having much success. Gentlemen will not go to them because they dislike to be cut by a lady. The Duchess of Cleveland, who has just published the "Battle Abbey Roll," a work which is likely to prove of great historical value, does all in her power to add to the beauty of her interesting property. She has herself painted the little dell where King Harold fell with ferns and flowers and made it as charming a place as any wherein historic interest and natural

beauty are allied. Mrs. Cleveland has consented to have her name used by Mrs. Chapman of Brooklyn as a "patroness" of a fair to be given for the benefit of the Brooklyn home for consumptives. This "patroness" business is quite the fad now. The supposition is that when a society woman attaches her name to a charitable enterprise as a "patroness" the people who are not quite so fashionable will be moved. A London letter says: "The wife of the

Marquis of Lorne is an undoubted artist. I have seen busts and other works in sculpture which showed that if she had chosen plastic art as a profession she would have succeeded at it. Her sketches of Canadian scenery are downright clever. The portrait at the Grosvenor is more than that; it is masterly. The armor in which. for picturesque reasons, the warrior is incased, is finely painted, and there is real power of modeling in color in the flesh. Mrs. Sam Foom, a Chinese lady who has recently gone back to China with her husband, has a singular story. She was a little slave girl, and was rescued years age by Dr. Gibson. She gave a lecture some time since, in one of the Methodist churches in San Francisco, on the history of her life. Her husband, a Christian Chinaman, started in business ten years ago, and made a vow that when he was worth \$3,000 he would go back to China to preach the ment. gospel to his countrymen. The couple have gone back, accordingly, as self-supporting missionaries.

Lady Onslow applied for an exemption order for her pet poodle, but the local authorities were inexorable and decreed a six-months' separation between mistress and dog. The mistake Lady Onslow made was in formally applying for exemption. Had she quietly smuggled the animal ashore in a bandbox (the orthodox mode of evading this law) nobody would have been the wiser, but as she herself directly acquainted the public health authorities with the animal's coming, they say they have no option but to enforce the law.

The phenomenon is what is known as "bloody rain," and was in ancient times regarded as a sure precursor of plague.

A paper read before the Iron and Steel institute said that "the quality of non-corrodibility considered, together with its strength, will render alloys of nickel and steel especially useful in all cases where the cost of metal is of minor importance when contrasted with the cost of labor to be expended upon it for its use for special purpose-the hulls of torpedo boats and other similar vessels."

Instead, she went outside the coop and clucked and clucked till she got her proper number of chickens, no more, no lessand strutted about with them at her heels, the proudest fowl in all the Nutmeg State. When the young ones were big enough to go to roost they feared to follow her to such a height, so she took them one by one upon her back and set them off carefully in a row, then perched at the head of them, confident that she had discharged the whole duty of a hen.
